Floor Space with Door/Lid Open (L x W x H) (mm):	900 x 650 x 1820
Nett Weight (kg):	46.5

Description

The SB-220 is a great-value, medium-sized workshop sandblasting cabinet designed for practical and reliable everyday use. The top-opening, gas-strut-assisted lid provides smooth, controlled opening and easy access to your workpieces, improving both safety and convenience. A large clear acrylic viewing window combined with an internal LED light ensures clear visibility during operation. A inlet port is fitted as standard, allowing the cabinet to be easily adapted to your existing vacuum or dust extraction system to remove fine dust and airborne particles and maintain a clear working environment. For best results, it can also be paired with the SB-C870 Industrial Sandblasting Dust Cyclone Extractor.

The SB-290 further enhances value with a gravity-feed metering valve that delivers the sandblasting media at the correct ratio, ensuring efficient performance, reduced media waste, and consistent, high-quality blasting results—making it a cost-effective solution for any workshop.

Features

- Top opening lid for easy access
- Fitted with a gravity feed metering valve for optimal performance
- Powder coated steel construction
- Inlet ready to adapt a filter system at rear of sandblast cabinet
- Internal LED lighting system
- Door safety latches
- Complete with large clear acrylic screen with replacement shields, gloves, gun & ceramic tips

- Requires compressor delivering minimum 13CFM (368L/min) FAD @ 80 psi
- Recommended to be used with an optional dust collector system
- Recommended to use 2 x 25kg abrasive grit

- Please Note:
- It is advisable to use an appropriate silastic sealant upon assembling cabinet
- Regular maintenance to clean dust collector filter bag is required

Includes

- 2 x Sandblasting Beads - Garnet (S296)
- Ø4mm, Ø5mm, Ø6mm, Ø7mm Ceramic Tips

Optional Accessories

- SB-C870 - Industrial Sandblasting Dust Cyclone Extractor - 2 Stage Filtration System. Order Code: (S310)
