#### Description

The RT-100 utilises a sliding table that makes material processing much easier and safer, particularly when making raised panels or shaping short sides. The split fence is easy to adjust and provides full support along both sides of the work-piece. Other features include a 60mm dust port with hood, tilt-up table with gas strut supports for easy router access, universal router mount and sturdy stand with a convenient shelf. Last but not least, a conveniently front mounted main switch allows you to turn the router ON/OFF without bending over and reaching under the table. Very convenient!
