Description

The ESR-450W Rotating Engine Stand is truly an easy & user-friendly rotary design that makes access to all parts of your engine easier. This very sturdy engine stand can hold up to a 450kg engine block, and with its five heavy duty swivel caster wheels allowing you to move and position the engine exactly where you need it.

Our updated version features bronze bush supports on the gearbox drive shaft along with the manual HD gearbox that allows you to easily rotate the engine block 360º in any desired position to gain better access to all parts of your engine. We have also changed the footprint to be the same as our HES-907F Engine Stand so that both models can be fitted with the optional ESDT-16 Drip Tray to keep your workshop clean.

Features

- 450kg capacity
- 360º geared rotating engine mounting plate & arms
- Heavy duty steel frame construction
- 4 x adjustable engine mounting arms
- Five swivel caster wheels
- Fold-up legs for storing
