Maximum Tyre Width (mm):	210mm
Roller Opening (Min-Max) (mm):	850mm
Weight per Jack (kg):	38

TRADE QUIP TQ
THE SPECIALIST IN EQUIPMENT**Description**

Save time and money with Go Jack, the portable jack/dolly combo that lifts any car in seconds, then moves it like a piano sliding across a gym floor. NO MORE four man crews straining to move a car. NO MORE crushed oil pans or unnecessary damage.

There's no jack like a Go Jack. Its twin rollers slide around the tire and squeeze upward, lifting the tire smoothly off the ground in seconds with a few clicks of the pedal.

The low friction, with 360° casters let you spin, side load, and position the car without damaging the floor or the car. Faster and safer than floor jacks, a fraction of the cost of electric carts.

Go Jacks cuts wasted time, and give you back wasted space.

Features

- Steel construction
- Heavy duty caster wheels
- Steel tyre rollers

Includes

- 2 x Go Jacks
