## Description

NOTE: Image shown with Optional Tooling.

Made in the USA, this hydraulic rotary draw bender improves on our breakthrough RDB-150 with patented\* additional features to streamline your bending jobs.

Use this machine for: Creating custom chassis, handrails, boilers, and metal art, among other projects.

Why choose the RDB-175 over similar machines?

Improved-accuracy digital readout package measures bend angle on the die head or spindle instead of cylinder placement to get a true reading. You can count on the extreme speed and reliability of the RDB-175 to eliminate delays.
