Description

Our 2-tonne, 3-metre Manual Chain Block is designed for reliable lifting performance across workshops, warehouses, construction sites, and maintenance environments. Built with a focus on durability and user confidence, it delivers smooth, controlled lifting operations while maintaining consistent load stability.

This unit is engineered to handle demanding day-to-day tasks, offering dependable operation whether used for equipment positioning, load handling, or general lifting requirements. Its compact design makes it easy to set up, transport, and operate in a wide range of applications, ensuring versatility without compromising on strength.

Developed for professionals who need a trustworthy lifting solution, this chain block reflects a balance of robust construction and practical usability, making it a staple tool for safe and efficient lifting.

Features

- Heavy-duty steel cast body with an impact-resistant gear case and reinforced side covers
- Precision-engineered bottom hooks featuring ball bearings and secure safety latches
- Fitted with stainless steel HAFCO ID plates and rivets to prevent sparking in sensitive environments
- Each HAFCO Chain Block carries an individual serial number linked directly to its test certificate
- Features
- Suitable for use in underground mining and heavy-duty applications with no aluminum components
- Fully Enclosed Gear and Brake System – Provides maximum protection from dust, debris, and weather, ensuring long service life.
- Small Headroom Design – Optimised for lifting in confined spaces and low-clearance environments
- Precise Chain Guide System – Patented design for smooth,
