C4921A

Type:

Replacement - Filter Cartridge

Description

Eliminate contaminants like sputters caused by moisture and oil with the Plasma Cutter Air Filter Replacement Cartridges, which can trap particles as small as .01 microns, keeping your torch from short-circuiting.

It's recommended that you replace the filter cartridge every five to seven days.

Features

- New and improved technology allows the filter to trap particles as small as .01 microns
- Extend the life of your consumables by protecting them from any moisture
- Filters up to 1250L/min
