Description

The 'built for work' characteristics of the GT POWER range are embodied in the industrial tubular steel frame and the long range fuel tank.

The GT2600 includes all the unique GT POWER features like industrial air cleaner & muffler system – for leaner quieter operating, superior quality alternator & automatic voltage regulator (AVR) - for more stable power output and low oil alert with automatic engine shut-down.

Perfect for powering most power tools, household appliances and heaters or even boiling the jug.
