METALMASTER

Description

WBH-2 mallets are manufactured from hard Maple with a hickory wooden handle for extreme durability and are specifically designed for roughing in your work during the early stages of metal shaping and typically used in conjunction with a shot bag. Made from a nearly indestructible non-marking material, these bossing mallets have two radius ends for added usefulness and practicality.

RSBS-3 thick grain leather bag for extended life and blemish free metal surface. These bags have suede outer surface for forming and a extremely tough inner surface to resist abrasive wear from media, also includes a reinforced hook & loop seal for easy adjustment of the fill to suit your requirements and the ability to change to different media such as lead shot.
