Description

This kit brings together a versatile 3-in-1 multi-process welder with a premium auto-darkening helmet, making it a complete solution for light fabrication, maintenance work, and general workshop use. The compact inverter welder delivers MIG, TIG (lift), and Stick capability in one portable unit, giving you flexibility across a wide range of materials and applications. Paired with a comfortable, true-colour welding helmet for clear visibility and safety, it's an ideal setup for anyone wanting pro-level performance in a lightweight package.

Features

- WT160MP - MIG/TIG/STICK WELDER
- Powerful - 160A welding power up to 8mm steel thickness
- Portable - Only 9kg super light weight and portable
- Reliable - Cutting edge inverter technology ensures ultimate reliability
- ARC and MIG function for variety of jobs
- Stepless voltage and wire speed control
- Mig duty cycle - 20% @ 160A - 60% @ 130A - 100% @ 100A,
- Lightweight and robust construction - only 9kg
- Overload protection for increased reliability
- 2m direct connect torch with earth & ARC lead set
- Left TIG (torch optional) for fine and delicate welding jobs
- Live digital displays for accurate feedback of welding output
- Over specified electronic components for increased durability and reliability
- Gas/gasless function for welding flux-cored MIG wire
- Overload protection for increased reliability and safety
- WT350 - Auto Darken Welding Helmet 9-13 Shade: Z00894AA
- Suits Stick, Mig, Tig, Arc Welding, Includes Grinding Function
- Ultra clear vision - True colour lens
- 4 Arc Sensors for reliable arc detection & switching
- Generous viewing area, (100 x 67mm)
