Description

KCU25B upgrades Kennametal's existing KCU25 with a newly engineered KENGGold™ PVD, multilayer coating that makes machining from one material to another easy while also achieving consistency in cutting. The nano-composite coating has an enhanced coating adhesion that delivers better flank and chipping resistance. Upgrade your multi-material projects and beat deadlines when working on steels, stainless steels, cast iron, high-temp alloys and non-ferrous materials.

Features

- KCU25B - Coated grade: Suitable for heavy machining, particular suitable when turning Austenitic stainless steels. Reduces build up on the cutting edge
- 2.12mm Width
- 1.06mm Radius
- Made in Germany
- 10 Inserts Per Pack
