Description

Machine performance once was paired with size and cost. Now, the Haas Super Mini Mill changes everything, by packing 40-taper performance into small packages at unheard of prices.

The Haas Super Mini Mill 2 is enhanced with a faster tool changer, faster spindle, and higher rapids for improved production output and part finish. It is perfect for schools, start-up shops, or as a first step into CNC machining. It is a valuable addition for shops needing a “second-op” machine, or an additional spindle where space is limited.
