| Bottle Dimensions, (Ø x Hieight) (mm): | Ø140 x 590 |
| Bottle Volume: | 1.0m3 |
| Transport Options: | "Pick Up Only" |

## Description

Swap and pay only for the price of the gas. No delay because there are pre-filled gas cylinders waiting for you. Well that’s EZi as! No rental fees, contracts, administration fees, or low usage charges.

EZiSWAP GAS provides a user friendly industrial gas cylinder swap system that saves you money. We have got you covered with Argon, Argon/Co2 mixes, Oxygen, Acetylene, Nitrogen, Co2, and Nitrogen/Co2 mixes

Used in the welding industry. Argon/Co2 Mix provides arc stability, puddle control and reduced spatter compared to pure CO2. For many the greater weld quality and reduced clean up makes this the shield gas of choice.

We have 90%/10% mix for MIG welding mild steel, and 98%/2% mix for stainless steel.

Please Note: This gas bottle is pick up only, can not be freighted on couriers

## Features

- Never pay rent again, saving you time and money!
- MIG welding of carbon steel
- Refillable Argon/Co2 Gas bottle
- Size "B"
