Description

Swap and pay only for the price of the gas. No delay because there are pre-filled gas cylinders waiting for you. Well that’s EZi as! No rental fees, contracts, administration fees, or low usage charges.

EZiSWAP GAS provides a user friendly industrial gas cylinder swap system that saves you money. We have got you covered with Argon, Argon/Co2 mixes, Oxygen, Acetylene, Nitrogen, Co2, and Nitrogen/Co2 mixes

The main industrial application for oxygen is combustion efficiency. As combined with a fuel gas it will produce much higher flame temperature.
It is used in conjunction with acetylene and LPG for brazing, glass blowing and cutting. While being Used with acetylene only for welding.
Other uses include beer brewing and fish tank oxygenation.

Please Note: This oxygen bottle is pick up only, can not be freighted on couriers

Features
