Description

The PSW-100 trade quality Adjustable Pin Spanner Wrench Set is designed to remove or install gland nuts, lock nut rings, collars and seal packing nuts on hydraulic cylinders and is a necessity for any industrial or automotive repair workshop.

Please Note:
This PSW-100 Adjustable Pin Spanner Wrench Set is made in Taiwan from great quality "Chrome Vanadium Forged Steel" and will outperform the inferior and cheaper versions when used correctly. There are many types out there in the marketplace that may look similar but they do don't last the distance compared to our Hafco model.
