Description

Work positioning device used in metalworking. It enables the operator to drill or cut work at exact intervals around a fixed (usually horizontal or vertical) axis.
Compact design for use on small mills, lathes and a drill press fitted with a compound table.
For instructions on how to fit dividing plates and instructions on how to use see "Brochures & manuals"

Features

- Gear ratio 36-1
- Graduations: 0-360º
- Hand wheel can be set to zero
- Hand wheel graduated in 10min divisions
- Can be used both horizontally and vertically
- Height: 41.27mm
- Note! No through bore
