Mortice Chisel Set - 3 Piece - CH/M-SET1

6, 10 & 12mm Chisels

ORDER CODE:	R8170
MODEL:	CH/M-SET1
Type:	Mortice Chisel
Chisel Set Quantity (No.):	3
Blade Type:	Quality Manganese Steel
Blade Hardness (rockwell):	59

Description

A good quality set of mortice chisels is an often overlooked requirement in the workshop, despite their inherent usefulness. Mortice and tenon joints are the most popular woodworking joint and this set allows for mortices to be cut more quickly, accurately and easily than using traditional bevel edge chisels. The trapezoidal profile, which makes the chisel slightly wider at the bottom than the top, reduces binding when cutting deep joints.

6, 10, 12mm chisels
Premium quality chrome manganese steel blades, quenched in molten salt gradually reducing temperature creating a superior blade hardened to 59 Rockwell
Trapezoidal profile, slightly wider chisel at the bottom than top reducing binding when cutting deep joints
Handles made from white hornbeam

Features

- Create Mortices with Ease - Designed especially for cutting mortices, these chisels feature a trapezoidal profile to ensure the blade does not bind in the wood
