Suits Wood Lathes
Note: Includes M33 x 3.5mm Threaded Back

ORDER CODE:	R8199
MODEL:	SC3
Type:	Scroll Chuck
No. of Piece:	~
Size:	90mm
Internal Thread:	M33 x 3.5mm
External Thread:	~
Suits:	Wood Lathes

Description

The SC3 chuck is lighter and more compact than the SC4, making it ideal for use on any lathe, particularly small to medium sized machines and is still compatible with the full jaw range. The compact design reduces load on the lathe spindles and bearings and gives good access to smaller work pieces. The large jaw slides offer unrivalled strength and holding power that cannot be found in other chucks of this size.

The improved and enlarged jaw slides give unsurpassed holding power and load bearing ability. They are made from high tensile steel, reinforced with nickel and copper and heat-treated to ensure superior strength

Supplied complete with woodworm screw, 50mm standard jaws set, this package offers unrivalled value.

Features

- 4 jaw self centring scroll chuck
- Made from heat treated high tensile steel and reinforced with copper & nickel
- CNC machined to high accuracy & tolerances
- Extra wide jaws guides providing superior grip
- Gripping internally and externally
- Light weight to reduce spindle bearing load
