RECORD POWER

Description

Record Power scroll saw blades are a premium quality range of blades made in Germany. They have been specifically chosen to offer cutting solutions to the vast array of possibilities a scroll saw offers and include both plain and pin end types. Depending on blade thickness, width, tooth patterns and numbers, these blades will cut a large number of materials, including hardwood, softwood, MDF, plywood, plastic, non ferrous metals and horn.

Features

- SSB-NF0820 Pack of 12 Skip Tooth Plain End HSS 20 TPI Scroll Saw Blades
- Plain end HSS skip tooth blades ideal for faster cutting. Give good chip clearance to minimise burning and create a smooth finish.
- 0.8mm wide, 0.34mm thick, 20 TPI
