Description

The Record Power RSDE2 is an excellent value general purpose workshop extractor. Compact and powerful, it is supplied with all the main accessories to use with both machines and power tools. Wheel kit is included.

This is a single motor drum machine with a large 50 litre capacity. It is supplied complete with a castor wheel set, a Ø100 - Ø32mm reducer with 2 metres of Ø32mm hose, 2 metres of 100mm hose, 5 spare paper filters and an easy fit cuff.

HPLV = High Pressure Low Volume System: HPLV extractors operate more like a standard vacuum cleaner as high pressure is increased or maintained when the inlet diameter is restricted or reduced. This extractor features a powerful 1000W through – flow motor design drawing dust & wood chips into a large Steel canister storage drum prior to entering both cardboard cartridge and paper bag filters; giving 2 levels of filtration down to 0.5 micron. This portable extractor is intended & ideal for the home workshop removing wood chips and dust from woodworking machines & power tools especially fitted with reduced ports from Ø100mm to Ø32mm.

Application examples Bandsaws, Sandblasters, Scroll Saws, Sanders, and Power Tools etc. The Waste content can easily be emptied via a single quick action clamp.
