Product Brochure For R9715

G Clamp - RPC-G/8

200mm (8")

ORDER CODE:	R9715
MODEL:	RPC-G/8
Type:	G-Clamp
Size (mm / inch):	200 / 8
Clamping Capacity (mm):	205
Throat Depth (mm):	75
Clamping Force (kgF):	1809

Description

Record Power RPC-G/8 G clamps. Not to be confused with cheap copies, these are a strong, high quality and heavy duty clamp cast from strong SG Iron which has similar properties to malleable cast iron but can be cast in larger sections – ideal for all medium to heavy woodworking, metalworking and general clamping applications.

The lead screw is rolled (unlike cheap imitations which are cut) making them stronger and providing quicker, smoother travel. The thick body has two heavy ribs for the full profile of the clamp to provide great strength and performance. The steel shoe swivels easily to tackle uneven surfaces with ease and the drop handle repositions easily for use even close to a support surface. This is a classic heavy duty G clamp you can rely on.

Features

- Made from high quality SG cast iron for heavy duty work
- Rolled leadscrew thread for extra strength
- Swivel steel shoe
