Description

The SB-375F Heavy-Duty Sandblasting Cabinet is now equipped with an integrated gravity feed metering valve, delivering smooth, controlled abrasive flow to maintain the ideal air-to-media ratio for stronger, more consistent blasting performance with reduced clogging and improved efficiency. Built as a proven workshop performer, it features a front-opening access door for easy loading and handling of workpieces, while a large tempered glass viewing window and internal LED lighting system provide excellent visibility and comfortable operation.

At the rear of the machine, an in-built vacuum extraction system removes fine dust and airborne particles during blasting, ensuring you always have clear vision of your workpiece and a cleaner working environment.
