

## Product Brochure For S5311

# Magnetic Panbrake - EB2000

2000 x 1.6mm

ORDER CODE:	S5311
MODEL:	EB2000
Foot Control Fitted:	Yes
Mild Steel Capacity (mm):	1.6
Bending Length (mm):	2000
Voltage / Amperage (V / amp):	240 / 15
Nett Weight (kg):	280

## Description

NEW GENERATION BENDING! Electromagnetic Sheet metal folding machines

Typical industries: Roofing, Aircraft, General Sheet Metal Fabrication

9 TONNE CLAMPING FORCE (with standard full-length clamp bar)

\*\* See Video Machine in action\*\*

## Features

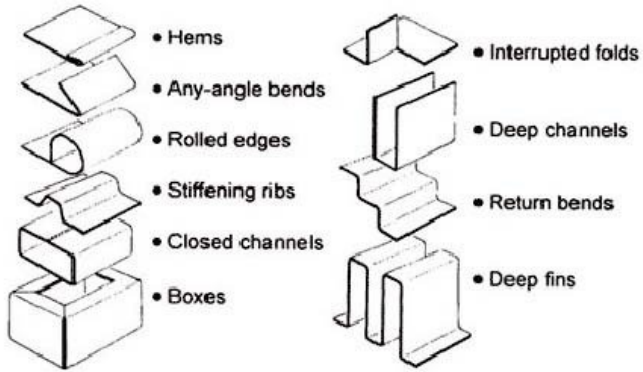

- Electromagnetic rather than mechanical clamping
- Bends all types of sheet metal, aluminium, copper, stainless steel
- Excellent design easy to use - forming deep channels and closed sections, deep boxes
- Additional bending clamp bars included, Sizes; 25, 38, 52, 70, 140, 280, 585 & 1150mm
- Much greater versatility than conventional sheet metal benders
- No limitation to depth of boxes
- Can form deep channels, and completely closed sections.
- Automatic clamping and unclamping means faster operation, less fatigue
- Quick and accurate setting of angle stop
- Infinite length bending in stages is possible
- Accurate and continuous indication of beam angle
- Open ended design allows folding of complex shapes
- Machines can be ganged end-to-end for long bending
- Adapts easily to customised tooling (clamp bars of special cross-sections)
- Mild steel capacity is rated on hot rolled material with 250MPA

## Includes

- Foot Control
- Storage tray
- Adjustable backstops
- A complete set of short-length clamp-bars

## Product Brochure For S5311

---

Special tooling can be quickly improvised from pieces of steel to help fold-up difficult shapes.
