M6 x 0.75mm HSS Spiral Flute Tap

Metric Fine Pitch

Ex GST	Inc GST
$15.65	$18.00

ORDER CODE:	T8407
Flute Type:	Spiral
d1 - Tap Size (Diameter) (Ø / mm):	M6
d2 - Shank Diameter (Ø / mm):	4.5
Pitch (TPI):	0.75mm
Pitch Type (TPI):	Fine
Thread Form (Type):	Metric
Standard (DIN):	DIN 374
l1 - Length (mm):	80.0
l2 - Flute Length (mm):	10.0
l4 - Square Length (mm):	6.0
Square Across Flats (mm):	3.4
Drill Tapping Size (Diameter) (Ø / mm):	5.3

Description

Designed for clean, efficient tapping of blind holes, Spiral Flute Taps feature helical flutes that draw chips upward and out of the hole, rather than pushing them ahead of the cutting action.

This controlled chip evacuation helps prevent chips from packing at the bottom of the hole, making spiral flute taps particularly effective when threads are required close to the bottom of a blind hole.

Manufactured from M35 High Speed Steel with 5% cobalt and finished with a durable TiCN coating, these taps offer excellent heat and wear resistance for demanding workshop and production applications. Precision-ground threads provide accurate, consistent thread forms and smooth cutting performance.

Features

- Ideal for blind-hole tapping, particularly where threads are required close to the bottom of the hole
- Spiral flute design efficiently draws chips upward and out of the hole during tapping
- Helps reduce chip build-up and clogging for cleaner, more reliable cutting
- M35 High Speed Steel with 5% cobalt provides excellent hardness, heat resistance and cutting-edge durability
- TiCN coating provides increased wear resistance and helps extend tool life
- Precision-ground threads produce clean, accurate and consistent thread forms
- Manufactured to DIN 371 Standard for consistent dimensions and performance
