Description

The Metalmaster M16 Pro Series Welding Table, paired with the TWS-622 Mobile Work Station and 69 Piece Fixturing Kit, is the ultimate mobile welding solution.

The 800 x 1200mm Welding Table features a welded S355 12mm thick steel frame, CNC-machined for precise flatness. Featuring Ø16mm holes with a 50 x 50mm hole pattern, it offers versatile clamping options for fixtures. Solid steel ribs and 50mm high sides ensure rigidity, while the plasma nitriding coating resists spatter, wear, and rust.

The Mobile Work Station offers ten drawers, adjustable shelving, hanging hooks, and side storage, with soft-close drawers, safety locks, foam liners, and oversized caster wheels for easy mobility.

400kg Total Load Capacity

NOTE: Welding Table Requires Fitting to Benchtop
A minor fitting process is required to mount the WT16-1208T Welding Table Top onto the TWS-622 Mobile Work Station Benchtop.
(Please refer to the downloadable Instruction Manual for easy to follow setup)
