Compact Synergic MIG/ARC/Lift TIG Inverter Welder with Trolley/Storage - AdvanceMig400C Pack

400A Three-Phase

Description

Unleash unparalleled power and flexibility with the AdvanceMig400C. This formidable 400A welder comes equipped with a high-duty cycle output in a compact design, ideal for rigorous site work. It features an intelligent synergic system that effortlessly adjusts parameters to match the job's material type, wire size, and thickness. Included is a powerful 4-roll geared industrial wire feed unit, ensuring smooth and consistent wire delivery. For added versatility, it offers optional upgrades such as an integrated heavy-duty industrial trolley and storage compartments. With its robust construction and advanced protection systems, the AdvanceMig400C is engineered for durability and peak performance in challenging environments.

Max Output (Mig) - 400A
Max Electrode Size - 4.0mm
Input Power Supply - 400V Three Phase 32A

Features

- Powerful 400A high duty cycle output in a compact size - Ideal for heavy duty site work
- Standalone machine or duplex full function separate wire feeder option - Ultimate flexibility for every job application.
- Intelligent synergic system - Easily set parameters by material type, wire size and work thickness
- Arc air gouging capability
- IGBT Module Inverter Technology - Smooth & stable output, increased reliability, high duty cycle
- 4 Roll Geared Industrial Wire Feed Unit - Powerful and smooth wire feed
- Integrated Heavy Duty Industrial Trolley
- Integrated Trolley Storage Compartment
- MIG Waveform (Inductance) Control - Greater control of the arc for smoother welding results
- Adjustable secondary settings such as pre flow, post flow, burn back and soft start - Greater control for MIG welding operation
- 2T/4T/ Bi - Level, Spot Weld Trigger Modes
- Lift TIG operation with down slope and remote current control ability
- Remote Control Spool Gun Connection - Effective results welding with soft wires such as Aluminium. Suitable for MIG brazing with bronze wires.
- Industrial IP23 casing with front panel protection - Resistant to damage, moisture and corrosion
- Production tested with 550V - Extreme stress testing in production for rugged reliability.
- Intelligent Protection System - Temperature, voltage and current sensors for increased reliability & safety
- Generator Friendly - Designed to work with generator power supply and protect from power surges.
- Phase Loss Protection - Machine automatically shuts down if power supply phase loss occurs, to prevent damage.
- Power Source Wind Tunnel Cooling Construction - Protection against environmental contamination
- Quick connect inlet gas fitting - Tool-less easy connection of gas supply to machine

ORDER CODE:	W1111
MODEL:	AdvanceMig400C Pack
Type:	MIG / TIG / STICK & Multifunction Welder
Part Number:	-
Voltage (V):	16V-34V
Recommended Plug Amperage (amp):	32
Welding Current Range - MIG (amp):	40-400A
Welding Current Range - STICK (amp):	10-400A
Welding Current Range - TIG (amp):	10-400A
Duty Cycle (% @ amp):	MIG - 400A @ 60%, 310A @ 100% & TIG - 400A @ 60%, 310A @ 100% & MMA - 400A @ 60%, 310A @ 100%
Wire Spool Size (kg):	5/15
Ferrous Wire Size - Range (mm):	-
Stainless Steel Wire Size - Range (mm):	-
Aluminium Wire Size - Range (mm):	-
MMA Rod Size (mm):	-
Wire Feeding Speed (m/min):	-
Recommended Generator (KVA):	20
Dimensions (mm):	670 x 250 x 445
Nett Weight (kg):	23

Product Brochure For W1111

Includes

- Binzel Style MB36 MIG Torch
- 5m Arc Lead 500A
- 5m Earth Lead 500A
- Argon Regulator with Flowmeter
- 32A 4 Pin 500V Angled Cable Plug
- 4-Wheel Welder Trolley with Integrated Storage
