ORDER CODE:	W1131A
MODEL:	EziCut40i
Part Number:	~
Cutting Capacity - Steel (mm):	~
Cutting Capacity - Aluminium (mm):	~
Voltage / Amperage (V / amp):	230 / 15
Recommended Plug (amp):	~
Duty Cycle:	40A @ 20% & 30A @ 100%
Current Range (amp):	20-40
Air Pressure Required (PSI):	~
Air Flow Capacity Required (L/min /Bar):	~
Recommended Generator KVA (kVA):	~
Dimensions (mm):	460 x 146 x 278
Nett Weight (kg):	7.3

Description

Cut with precision and ease using the EziCut40i. This 40A plasma cutter features a Non-HF Arc Starting System to reduce electromagnetic interference and ensure a clean start every time. Equipped with an Automatic Pilot Arc Control System, it excels in handling discontinuous cuts on materials up to 20mm thick. Its lightweight design makes it perfect for portable operations, while its robust industrial casing ensures durability and protection against harsh environments.

Features

- Cut with precision and ease using the EziCut40i. This 40A plasma cutter features a Non-HF Arc Starting System to reduce electromagnetic interference and ensure a clean start every time. Equipped with an Automatic Pilot Arc Control System, it excels in handling discontinuous cuts on materials up to 20mm thick. Its lightweight design makes it perfect for portable operations, while its robust industrial casing ensures durability and protection against harsh environments.
- Max Output (Plasma) - 40A
- Max Cut Capacity - 20mm Carbon Steel
- Input Power Supply - 15A 230V
- Non-HF Arc Starting System - Increased reliability and low EMF pollution
- Automatic Pilot Arc Control System - Increased cutting capability, especially for discontinuous cutting
- IGBT Inverter Technology - Smooth & stable output, increased reliability
- Intelligent Plasma Torch Protection System - Protects plasma torch from damage from incorrect air pressure, consumables not in place, excessive pilot arc use.
- Integrated external air regulator with water trap/ filter - Easy adjustment & serviceability
- Superior Strata PT-60 Plasma Torch - Superior cutting performance and consumable life
- Lightweight & Compact Design - Ideal for portable applications
- Production tested with 440V - Extreme stress testing in production for rugged reliability.
- Industrial IP23 casing with front panel protection - Resistant to damage, moisture and corrosion
- Intelligent Machine Protection System - Temperature, voltage and current sensors for increased reliability & safety
- Industrial casing with front panel protection - Resistant to damage
- Air flow manual activation switch - Set & test air pressure without the need to trigger the torch
- Generator Friendly - Designed to work with generator power supply and protect from power surges.
