Ø0.8mm Gasless Mild Steel MIG Welding Wire

4.5kg Roll

Ex GST	Inc GST
\$120.00	\$138.00

ORDER CODE:	W1140G
Wire Type:	Gasless - Flux Core
Wire Diameter (mm):	Ø0.8
Wire Weight (kg):	4.5

Description

Gasless Wire is an all-position, self-shielded flux-cored wire designed for single pass fillet and lap welding on galvanised or carbon steel as thin as 20 gauge, without burn-through. Gasless Wire E71T-GS is commonly used on small portable 240 volt MIG welding machines, offering smooth arc action with very little spatter. Travel speed is fast, penetration is good and slag removal is easy.
