| ORDER CODE: | W171C |
| MODEL: | T2 - EURO |
| Lead Length (m): | 4 |
| Connector Type: | EURO |
| Connector Size (mm): | ~ |
| Maximum Amp Rating (amp): | 190 |

## Description

The ARC TORCHOLOGY® T2 TIG Torch has been designed for maximum performance and longer consumable lifecycles. Thanks to exclusive torch technologies, this torch boasts a 30% better power to weight ratio compared to standard UNIMIG torches – more power in a lightweight body!
FORCE COOL™ TECHNOLOGY:
A highly effective series of passages and wells force cool the collet, maximising conductivity and extending consumable life.

HEAT ZONE ISOLATION™ TECHNOLOGY:
Transferred heat from the ceramic cup is isolated by a unique external barrier resulting in cooler running torches with increased power to weight performance ratios.

TUNGSTEN RELEASE SYSTEM™:
Trouble free extension of the electrode with a 180° twist of the back cap. There is no need to remove any other wear parts to extend the electrode.

## Features

- ARC TORCHOLOGY® T2 TIG Torch
- 190A AIR COOLED TIG WELDING TORCH
- Rating:190Amp DC, 135Amp AC @ 35% duty cycle.
- Designed for operator comfort

- Cooling Method: Air Cooled
- Duty Cycle: DC35% @ 190 Amps
- Duty Cycle: AC35% @ 135 Amps
- Dinse Style: Euro Style
- Length 4 Metre
