MIG, TIG & STICK - RAZOR MULTI 220

5-year warranty
15 Amp Plug

On Sale

Ex GST	Inc GST
\$1,955.65	\$2,249.00
\$1,880.00	\$2,162.00

ORDER CODE:	W1786
MODEL:	MULTI 220
Type:	MIG / TIG / STICK & Multifunction Welder
Part Number:	U11008K
Voltage (V):	240
Recommended Plug Amperage (amp):	15
Welding Current Range - MIG (amp):	30 - 220
Welding Current Range - STICK (amp):	10 - 180
Welding Current Range - TIG (amp):	5 - 220
Duty Cycle (% @ amp):	15 @ 220 (MIG / TIG) & 15 @ 180
Wire Spool Size (kg):	1 & 5
Ferrous Wire Size - Range (mm):	~
Stainless Steel Wire Size - Range (mm):	~
Aluminium Wire Size - Range (mm):	~
Recommended Generator (KVA):	11.0
Dimensions (mm):	470 x 190 x 380
Nett Weight (kg):	15.1

Description

A professional machine in a portable case with all the power, the RAZOR MULTI 220 is perfect for the worksite or the workshop.

HD Backlit Interface

This next generation interface panel is bright and easy to read in any environment.

Synergic MIG Control

Getting set up for a weld has never been faster with our preset synergic programs. Simply select your wire type, wire size, gas type and material thickness, and the machine does the rest. It'll pick the optimal settings for your weld.

Multi-Process Welding

Get the job done quickly and efficiently with our versatile three-in-one welding machine. With the ability to perform MIG, TIG, and STICK welding all in one unit, you can save valuable time and effort without sacrificing quality.

Digital Control MIG Torch

Our digital MIG torch allows you to adjust your settings on the fly. No more hassle of constantly adjusting your settings on a separate control panel. With our leading technology, you can easily fine-tune the amps, current and voltage at the touch of a torch button.

Spool Gun Ready

Make welding aluminium even easier. No need to change your existing setup. The spool gun lets you quickly switch over and get any job done with no downtime.

Gas & Gasless MIG

Capable of running both gas-shielded and gasless MIG wire, you can tackle a wide variety of welding projects with ease. Whether you're working with mild steel, stainless steel, aluminium, or flux-cored wire, our machine has got you covered.

Trigger Controlled DC Lift Arc TIG

The Trigger Controlled DC Lift Arc ignition allows the arc to be started easily in DC TIG by simply touching the tungsten to the workpiece and lifting it up to start the arc. This stops the tungsten tip sticking to the workpiece and breaking the tip from the tungsten electrode.

Advance MMA Features

This machine features Anti-Stick technology, as well as adjustable Arc Force and Hot Start functionality. These features are designed for improving weld quality and ease of use.

Smart Fan

Smart Fan diminishes noise, saves power, helps reduce energy costs, and minimises the number of contaminants being pulled through the machine.

Product Brochure For W1786

Features

- Quick and easy setup with synergic MIG programs
- 3-in-1 multi-process machine so you can MIG, TIG & STICK
- Geared wire drive system for smooth wire feeding
- A 5-year warranty to reflect our confidence in this machine

Includes

- RAZOR MULTI 220 Welder
- 4m M24 Digital MIG Torch
- 4m Twist Lock Electrode Holder
- 4m 300 Amp Earth Clamp & Lead
- Twin Gauge Argon Regulator
- 1.8m Gas Hose with fittings
- Operating Manual
- 0.8-0.9mm V Groove Roller
- 0.8-0.9mm F Groove Roller
- 1.0-1.2mm U Groove Roller
