Chisel Size & Type:	24mm Roughing Gouge & 9.5mm Spindle Gouge & 19mm Skew

Description

Take your woodturning to the next level with the HAFCO WOODMASTER Cryogenic Series Chisel Set. Made from M2 High Speed Steel and enhanced with an advanced cryogenic treatment down to –185°C, the steel's structure is refined to create harder martensite crystals and fine carbides. This process can deliver up to 2–3 times the wear resistance and edge life of standard HSS, providing smoother cutting performance and longer-lasting sharpness.

For woodturners, this means sharper tools that last longer — turn more and sharpen less.

Each tool features solid hardwood handles for comfort and balance, stainless steel ferrules for durability, and is supplied in a black presentation storage box.

Features

- Cryogenically treated M2 HSS
- Up to 2–3× longer edge life than standard HSS
- Precision-ground blades for smooth cutting
- Hardwood handles with stainless ferrules

Includes

- 24mm Roughing Gouge
- 9.5mm Spindle Gouge
- 19mm Flat Skew Chisel
- Presentation storage box
