MODEL:	~
Set Type:	Carbide Insert & Wood Hollowing Tool Set
Number of Pieces (No.):	3
Chisel Size & Type:	1 x Extra Long Straight & 1 x Shallow Swan Neck & 1 x Deep Swan Neck

Description

Designed for precise, controlled hollowing on woodturning lathes, the HAFCO WOODMASTER 3-piece carbide-tipped hollowing set makes shaping bowls, vases, and hollow forms easier and more efficient. Each tool is fitted with a replaceable tungsten carbide cutter that delivers a consistently smooth finish with reduced risk of catching—ideal for both beginners and experienced turners.

Carbide cutters are simple to use and require no sharpening. Just keep the tool flat on the rest and start hollowing. When the edge dulls, simply rotate or replace the tip and continue working—minimising downtime and maintaining performance.

Each tool comes ready to use out of the box with a carbide cutter installed, along with a hex key for quick and easy cutter rotation or replacement.

Built to last
Manufactured from durable C45 steel and finished with chrome plating, these tools are hardened to HRC 92 for excellent strength and wear resistance. Ergonomic hardwood handles, complete with reinforced ferrules, provide comfort, control, and long-term durability in the workshop.

Why choose carbide tips?
Tungsten carbide offers superior wear resistance and a significantly longer edge life than traditional and even cryogenically treated HSS tools. With no sharpening required, carbide tools are perfect for maintaining a consistent, high-quality finish with minimal effort.

Supplied in a deluxe foam-lined presentation case—ideal for safe storage or gifting.

Features

- Replaceable tungsten carbide-tipped cutters – no sharpening required
- No sharpening required – rotate or replace the tip when dull
- Chrome-plated C45 steel shafts for durability
- Hardwood handles with stainless ferrules
- Supplied ready to use with carbide cutters installed

Includes

- 1 x Extra Long Straight Tool
- 1 x Shallow Swan Neck Tool
- 1 x Deep Swan Neck Tool
