Description

The RG-190 ripping gauge makes repetitive ripping of thin strips safer and easier than any other method. Made from heavy duty aluminium extrusions, the gauge locks securely in any 3/4" x 3/8" mitre gauge slot. The built-in scale helps you make fine accurate adjustments. The ball bearing holds the stock firmly against the fence, allows smooth feeding and makes repositioning a simple operation. Also, a very handy gauge for bandsaws & table saws.

Features

- 0 - 135mm clamp depth adjustment
- Locks into any 3/4” wide x 3/8” deep table slots
- Makes repetitive ripping of thin strips easy and safe
- Ball bearing roller support to smoothly guide the timber past the blade
- Cuts to the left of the blade, preventing burning, binding and kickback
- Made from heavy duty aluminium extrusions with a built-in scale
- 190 x 75mm aluminium extrusion body with adjustable sliding extrusion clamp
