Description

AF400 Two Stage Air Filter is useful for reducing nuisance dust, particularly in small workshops up to 113m3.

This new air filter offers great features and performance at a very competitive price. It features two stage filtration with pocket filters to provide filtration down to 1 micron. It has 3 fan speeds and a timer function so you can leave the unit to run for a period after you have finished in the workshop. Both of which can be applied by remote control, which is included with the machine. Also supplied with mounting hooks and chains.
