Description

You don't have to choose between buying a planer or a thicknesser – with the PT-300 you can have the best of both worlds in one. Hafco Woodmaster has designed a machine that's user friendly changeover between planing and thicknessing functions. This versatile machine features an extra heavy duty cast aluminium extruded fence with centred controls for quick adjustments, a built-in dust chute capable of handling both operations.

The surfacing tables are cast iron, 1510mm long and precision planed to ensure the most accurate results. The four HSS blade cutter block is powered by a powerful 2.25kW 240V motor that can handle the toughest timbers that results in a superior finish every time
