Features

- 2400W motor with high overload durability
- Super tough alloy outer casing with double-insulated polycarbonate inner layer
- Easy to operate trigger switch
- 3-position anti-vibration side handle
- Tool-less guard adjustment
- Low profile head for access into confined areas
- Auto-stop brushes and anti-dust airflow system for maximum motor protection
- Carbon brush access, allows user to replace brush as needed to greatly prolong the life of the tool
- Ball bearings seated in iron retainer for greater durability
- Dust-proof labyrinth construction prolongs armature, switch and bearing life
- Sealed armature coil, reduces wear caused by dust and debris for longer tool life
- Tool-less wheel guard can be adjusted to desired angle
